**18206 Tecna Libra 800 book on demand line****2015**

Libra 800 can assemble books with soft covers and book blocks with "false covers" (end sheets and gauze on the spine) to be ready for casing-in machines for hardcover production. The change from soft cover book to book blocks preparation for hard cover is easy, and can be accomplished in approximately 15 minutes. The line is able to process "books of one" for both soft cover and hard cover books: books can vary in size, number of pages and cover, one by one. The line does not add the ribbon in the book blocks and does not include case-in process for hardcover

**18226 SCS Easy Fly Pro frontcutter****2014**

Easy and quick format change Easy Fly Pro can be positioned before or, if required, after the three knife trimmer by just replacing a piece of conveyor, without changing the layout of the existing line. By simply pushing a button EasyFly Pro is transformed into a regular conveyor belt, no bypass or similar equipment needed.

**18142 Cermi XCR 100 front cutter****2007**
